About us

URB Bearings Distribution is a world leader in its field with over 30 years experience.

Proprietor: Marian Platzman & Raz Zilberstein.

The company specializes in the importing, exporting, marketing and sales worldwide of bearings and allied products, under the internationally recognized URB & URBbd brands.

Also distributes familiar brands such as: DAMON, HB, FAG, MARKES, RHP, SKF, TIMKEN & other well known brands.

- URB caters for the industrial and agricultural sectors, servicing the mining and material handling industry, as well as the automotive and general manufacturing industries.
- While the company's main offices and warehouse logistical facilities are in Israel, the company has strategically situated distribution centers in Leicestershire in the United Kingdom, Philadelphia U.S.A. and in Johannesburg, South Africa.
- For many years URB bearings distribution has been engaged in business worldwide, concentrating mainly on OEM, and other major customers in order to stay ahead in the market and due to market growth and the increased variety of products.

URB found it necessary to invest and open its own new modern logistics distribution centers as stated. This enables the company to provide its customers with a wider range of stock items at competitive prices, while cutting down considerably the delivery times of merchandise to customers. This speed and flexibility of service will save customers many months in delivery time.
